Sports tailpipes

## An established part of our programme for 20 years: driving pleasure retrofitted.

A Porsche stands for enjoyment at the wheel, sports car emotions, unmistakable design and, of course, impressive performance. As well as your idea of how this should be expressed. Visually, tangibly and audibly. In short: how it can best fit in with you and your activities – 365 days a year.

This is what Porsche Tequipment has been offering for 20 years with its high-quality

products. Helping to turn a sports car into a sports car that is specifically adapted to your life. Whatever your plans.

Right from the start, Porsche Tequipment products have to meet the same standards as our vehicles: developed, tested and inspected in Weissach. By the same Porsche engineers and designers responsible for creating each model.

Conceived with the complete vehicle in mind and tailored to your particular Porsche. The result: a range of exceptional products with which you can refine your Porsche to suit your own individual requirements. Fitted after delivery. With no fuss. And, above all, with typical Porsche quality.

With your Porsche, you've already made your dream come true. Now it's time to live it. You will find the relevant accessories from Porsche Tequipment on the following pages.

### Sports exhaust system

Features modified main silencer and twin dual-tube trims with Cayenne Turbo design in polished, high-gloss aluminium with a nanocoat finish. The sporty sound is selected using the separate SPORT button in the centre console.

### Sports tailpipes

Give the rear of your Cayenne an even sportier look with these aluminium twin dual-tube tailpipe trims in a distinctive design. Nanocoated to make them easier to clean and enhance the sheen.

SportDesign package with side skirts

Smoked LED taillights

Stainless steel skid plate (front)

Stainless steel skid plate (rear)

**SportDesign package with side skirts<sup>1</sup>**

No room for compromise: especially when it comes to the right sports equipment. That's why the SportDesign package is sporty, striking and functional – and specifically tailored to the Cayenne, of course. This specially developed package comprises a front apron available in the

exterior colour of your vehicle with additional air intakes, a rear apron with side attachments, side skirts, wide, imposing wheel arch extensions and a distinctive roof spoiler with fixed bi-plane wing profile.

**Smoked LED taillights**

Smoked LED taillights featuring lenses in red and a black finish on selected internal parts create an appealing dark look at the rear of your Cayenne. The LED taillights feature the same function and styling as standard taillights.

<sup>1</sup> Restricted off-road capability.

**Stainless steel skid plate (front)**

The front skid plate in stainless steel gives your Cayenne an even more imposing appearance. Its colour has been carefully selected to complement the metallic features of the Cayenne and installation does not affect the vehicle's approach angle.

**Stainless steel skid plate (rear)**

The rear skid plate in stainless steel lends a sportier look to the rear of your Cayenne and is ideally fitted in conjunction with the stainless steel skid plate (front).
